

Tyack Health - Psychology Services

Canonical: <https://tyack-health.directory.norg.ai/healthcare-services/mental-health-psychology/tyack-health-psychology-services-1/>

Description:

Psychology is the scientific study of how people behave, think and feel. Tyack Health offers face-to-face and telehealth psychology appointments with experienced clinical and general psychologists. Services include cognitive behaviour therapy, psychological assessment, and treatment for depression, anxiety, trauma, ADHD, bipolar disorder, OCD, PTSD, and other mental health conditions. Psychologists are registered with Medicare and private health funds, and provide services for adults, teenagers, and children.
